TECHNICAL SKILLS

JavaScript • Angular • Drupal • Express.js • SQL • Node.js • jQuery
Angular Material • MongoDB • HTML 5 • CSS 3 • JavaScript ES6

EXPERIENCE

UI DEVELOPER / ASSOCIATE CONSULTANT • CONCORD USA

MARCH 2018 – PRESENT

Solo Project - Gig Center

- Develop responsive web apps and portals for various Fortune 100 health care and health insurance clients using Angular 6, JavaScript, Drupal 8 (CMS), and advanced HTML and CSS.

- Build a strong rapport with clients and provide consulting services to add value and efficiency to their development projects.

- Participate in user story grooming sessions in an Agile environment.

FULL STACK SOFTWARE DEVELOPMENT STUDENT • PRIME DIGITAL ACADEMY

SEPTEMBER 2017 – MARCH 2018

Solo Project - Gig Center

- Developed a web application to help bands and musicians manage details for upcoming gigs. Solves the problem of having to sort through and locate pieces of information in multiple locations (long email chains, text messages, etc.)

- Users can log into the app and immediately see the events they've been scheduled for. They can select a specific gig to view the details. Gigs can also be added and specific band members can be scheduled for that gig. Song lists can also be added to a gig from a database of songs

- Technologies used: SQL, Express.js, AngularJS, Node.js, and AngularJS Material

Group Project – Cushman & Wakefield

- Worked with 3 other software development students to create a web application for the Twin Cities leading commercial real estate firm, Cushman & Wakefield

- Took a series of paper client surveys and turned them into a full stack web app used by Cushman & Wakefield and their prospective clients

- Handled all communication with our client. Maintained a great rapport while fielding requests and managing expectations regarding features requested versus features we could accomplish on time

- Technologies used: PostgreSQL, Express.js, Angular JS, Node.js, Bootstrap 4, Chart.js, and Nodemailer

CREATIVE ARTS DIRECTOR • WOODDALE CHURCH

AUGUST 2008 – OCTOBER 2017

- Planned engaging and culturally relevant music for a 5000+ member multi-site church
- Set and carried out the mission, vision, and goals for the Creative Arts Department
- Mentored and developed site Music Directors
- Recruited, trained, and managed a team of 100 volunteers and paid musicians
- Launched several technological initiatives including the use of Planning Center Online and Ableton Live. Standardized the use and implementation of these technologies organization-wide.
- Increased the number of volunteers by more than 200% through recruitment, development, and creating a fun and engaging atmosphere
- Launched an internship program and managed interns

EXPERIENCE (CONT.)

CUSTOMER SERVICE ADVISOR • TRADEMARK TRANSPORTATION INC.

FEBRUARY 2008 – AUGUST 2008

- Provided outstanding and attentive support to a group of clients at a national LTL (less-than-load) freight forwarding company
- Entered orders into the system and kept clients up to date on order statuses
- Helped define and streamline data entry processes
- Worked with dispatch managers to consolidate loads and match loads with drivers

EDUCATION

PRIME DIGITAL ACADEMY

FULL STACK SOFTWARE ENGINEERING CERTIFICATION • FEBRUARY 2018

UNIVERSITY OF NORTHERN IOWA

BACHELOR OF ARTS – PERCUSSION PERFORMANCE • MAY 2005

COMMUNITY INVOLVEMENT

FEED MY STARVING CHILDREN

JANUARY 2012 – PRESENT

- Led teams of volunteers to pack meals for children in need 2-3 times per year
- Packed an average of 21,600 meals per visit, which provides 59 children with food for a year!
